

Western Elms & Circuit Lane Surgeries

Patient Participation Group

We Need You!

Would you like to influence the development of local health services?

We already have a very successful group who identify issues on behalf of patients, raise funds and supports the surgery in these times of great change.

If you are a patient of ours and you have a couple of spare hours a month where you may like to get involved in the current changes within the NHS and General Practice?

Please email we.patientgroup@nhs.net
and let us know how you would like to help.

Alternatively, please come to the front desk at either surgery and ask how?
